

Model No:VT-5412
SKU:8355

1. Product Drawing - Front

1. PIR Motion Sensor

2. Infrared LED × 6

3. Light Sensor

4. 166° HD Camera

5. Microphone

6. Push Button

7. Indicating LED

8. Speakers

2. Product Drawing - Back

- 9. AC14V~24V Power Interface
- 10. Reset Button
- 11. Micro USB Port (Battery Charging)
- 12. Battery Compartment Cover

3. Product Drawing - Mounting Bracket

- 13. Power Contact Base
- 14. Screw Holes x 4
- 15. Wire Terminals
- 16. Mounting Hooks x 6

4. Installation -Bracket Install

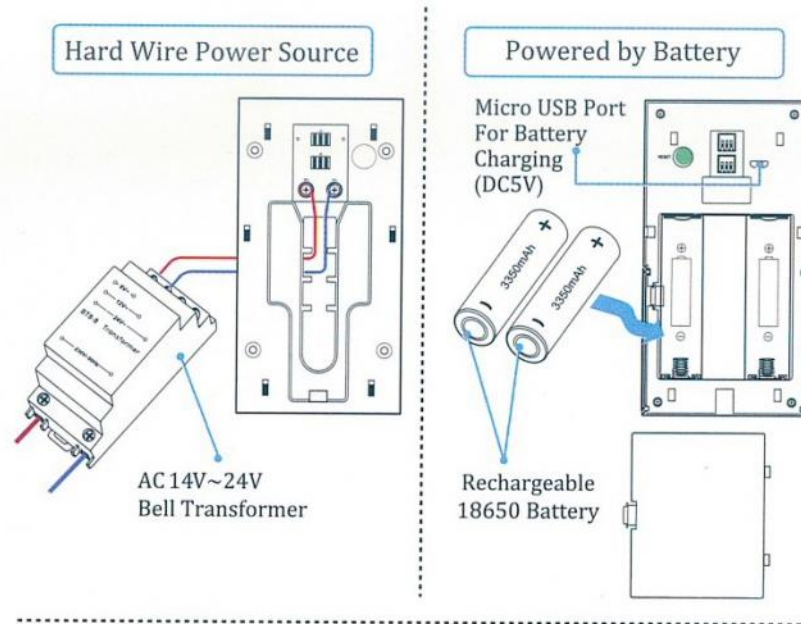

② Seal Tightly

③ Tighten to secure

5. Power Supply Solution

6. App Download - VTAC SMART LIGHT

Scan to download the App

V-TAC Smart Light

Download the app from App Store or Google Play, run the app on your smart phone, and set up the smart video doorbell, following the app instructions.

7. Smart WiFi Video Doorbell Parameter:

Smart WiFi Video Doorbell security solution mainly provides the following functions: wireless connection, ultra-low power consumption, remote active wake-up, quick start

Main Processor	Hi3518E
Sensor	1/4 COMS OV9732
Video	1280*720@25fps
	H.264 Bitrate self-adaptive
	Suitable for changeable network environments(3G,4G or WIFI)
Audio	Two-way voice & Support echo cancellation
	Built-in speaker
	Built-in Microphone
View Angle	166 degree Horizontal
Day & Night	IR-CUT double filter automatically switches
	6pcs infrared LED 850mm
	Min Illumination:1 Lux
Connection	Support WiFi 2.4 GHz, IEEE 802.11 b/g/n
	AP Hot spot
	Scan QR code
Storage	Support SD card 8G / 16G / 32G
Recording	Support smart phone local record, records video playback
	Optional recording time setting between 15s -45s, once doorbell triggered
Screen Shot	Support Smart phone screen shots
Working Condition	Press Button Directly
	PIR detection triggered
	Mobile phone Control
Running up	System running up in millisecond
Inform	Push message within 1s-2s
Motion Detection	PIR motion detection, sensitivity High(2s)/ Medium(within 5s)/ Low (within 10 s)
Scene Mode	Backlight compensation
	Infrared night vision
	Quick movement
	HLC
	D-WDR
Share	Support QR code share(one-click generates QR-code, share to others To add your doorbell devices, join in remote control. Maximum supports 7 authenticated users, supports users 3 view at the same time
Battery	3.7V, 2pcs 18650 battery, 3350mAH, Rechargeable or (14V~24V AC charging)
Power Consumption	Working 170mA, Standby 160μA

8. Apk main functions

Smart life apk integrates low-power smart security solutions Tuya , which provide the following management functions for video doorbells:

1. Smart doorbell management functions, including adding and deleting doorbells.
2. Configure the smart doorbell connection through WiFi network on apk.
3. Receive push messages, including doorbell call and motion detection (PIR) and push information management function.
4. Connect the video doorbell, view the camera through the doorbell, screenshot and local recording function.
5. Smart doorbell user management function can share the video to other family members.
6. Smart doorbell setting functions, including power management settings, basic function settings, motion detection settings, memory card settings, software upgrades.

Version support:

1. Android apk only supports Android 4.1 and above operating systems;
2. IOS apk supports IOS8.0 and above operating systems

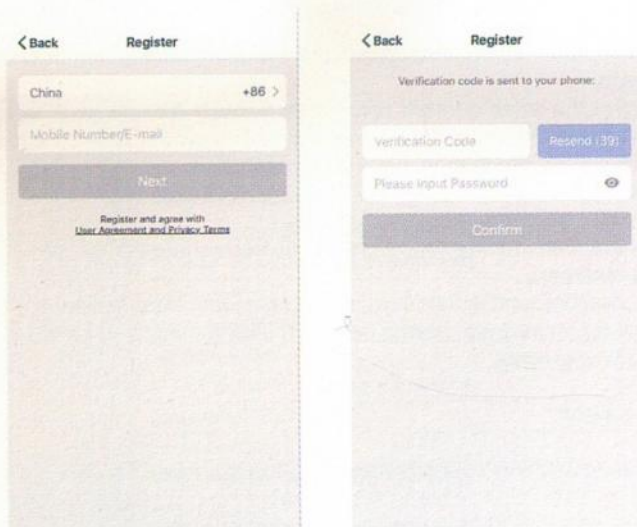

9. Apk Guide

Download V-TAC Smart Light.apk on mobile phone, open apk, you can see the following guide page.

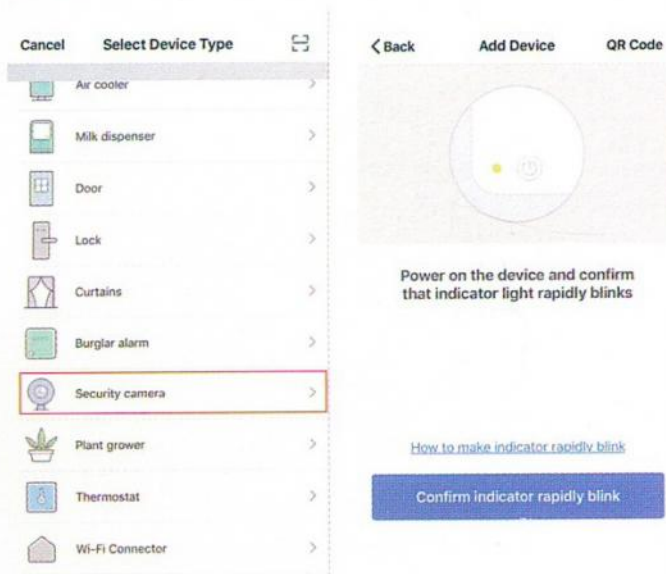

10. User Register

New user register it according to guide steps,already registered user just login it.
